COMPACT PERFORMANCE

0.20 - 0.24 L/hr in 60% relative humidity

0.38 - 0.45 L/hr in 90% relative humidity

Hot water within 40 minutes.

RUGGED & SIMPLE

Few moving parts

Quiet operation

DESIGN FEATURES

COMPACT WARFIGHTER PORTABLE

EXTREME CONDITIONS AUSTERE ENVIRONMENTS

CONDENSE FOR WATER DISTILL FOR WATER

BATTERY SOLAR 12V POWER

HOT WATER COLD WATER

TARGETED CAPABILITIES

- Fits in a rucksack.
- Deploys in minutes.
- Condensate collection from air.
- Purification of muddy, saline, or biologically unsafe water.
- Provides hot water for rations and hygiene.
- Simple field cleaning.
- Expandable for greater output.
- Continuous production under power with no additional consumables.
- Essential for water and access-denied environments.
- MIL-STD durability.
- Extend field time and lessen dependence on resupply.
